

*I am an Interactive & Web Designer with a passion for illustration, programming and problem solving. I am searching for an opportunity to strengthen my skills, evolve as a UI/UX and Front End Designer, and create lasting impressions while strengthening my network of peers. I've designed, developed and tested for email marketing, digital banners, websites, CMS', as well as developed graphics and print collateral for the marketing team. I've collaborated with fellow designers, developers, analysts and QAs with designing, building, problem solving and enhancing efficiency of DCO and Rich Media Banners.*
